

# Nurse Residency Program at UF Health Central Florida

Recent graduate nurses with less than one year of acute care experience are supported while entering practice with mentorship, education, simulation and hands-on clinical experiences.

## Our exceptional Nurse Residency Program

- Development of critical thinking skills with over 80 hours of hands-on practice in a safe environment
- Compensation starts on Day 1
- Guidance from professional nurse preceptors
- Personal progress evaluations
- Full year of support and mentorship
- Five cohorts scheduled for 2022
- Completion celebration at end of program

UF Health Central Florida's nurse residency program offers classes at UF Health The Villages® Hospital, UF Health Leesburg Hospital and UF Health The Villages® Hospital Freestanding Brownwood E.R.; simulations and meetings are all incorporated into existing work schedules.

## Our nursing career benefits

- Access to continuous education through UF Health Central Florida Academy classes
- Tuition reimbursement to advance your career
- Leadership focused on developing you as a professional nurse and member of our team

*"This is the only place that I feel truly supported while learning to be a new nurse. The education team is very approachable." — 2022 Nurse Resident*

*"The educators provided real-life situations that I will see as a floor nurse." — 2021 Nurse Resident*

*"The program is exceptional and covers material that will help us become great nurses." — 2020 Nurse Resident*

*"Thank you for the role-modeling and evidence-based nursing advice. I feel supported!" — 2020 Nurse Resident*
